

Experiences

Working around the world

Ghana, Thailand, Cambodia, Vietnam, Malaysia : August 2016 - August 2017

Decided to start working my way around the world for a year. Thus allowing me to hopefully expand as a person and a designer, by meeting and working with different people and experiencing different cultures.

MindNET Ghana : Lead Creative / Lead Developer

Accra, Ghana : August 2016 - December 2016

Working as the Creative and Dev Lead I worked on a large range of products including but not limited to designing & developing a web e-commerce platform, design & developing a mobile app, and any graphic design pieces.

Authora : Creator, UI/UX Designer, Developer, Marketer

July 2016 - Present

Working on an web app that allows authors to easily create responsive web-based books and add interactive elements with the goal of increasing retention and engagement.

Archive : Creator, UI/UX Designer, Developer, Marketer

May 2016 - Present

Working on an mobile app that allows designer to collect inspiration they find out in the world all in one place, organized and easily searchable. Producing this has been a learning process for me not only on the development side but also on the business and marketing side.

Freelance UI/UX Design & Front-End Developer

March 2016 - Present

I've worked with clients all over the world mainly through Upwork as well as some connections through friends and family. So far I have worked on web UI design, web UX design, mobile UX design, and mobile UI design.

RED Interactive Agency : Designer

Santa Monica, CA : June 2015 - March 2016

I designed responsive websites that are soon to be released, worked for WGN America's Outsiders and Underground Experience. Also worked for A&E's *Asterisk website as well as working on the landing page redesign.

THR33FOLD Integrated Interactive & Digital Marketing Agency : Creative Intern

Coral Gables, FL : June - August 2014

Worked on developing promotional animated videos, designed and implemented social media content, and worked on designing and developing responsive websites.
